Professional summary

Software Engineer with 3 years of experience in frontend and mobile development, specializing in **Flutter (BLoC)**. Delivered **4+ production-ready apps**, including a regional banking app (BPRU), achieving **95% design accuracy** and seamless end-to-end deployment. Skilled in **Flutter, React, Next.js, Vue**, and familiar with backend development and **Docker**. Experienced in fully remote collaboration, system architecture design, and database structuring. Focused on clean architecture, maintainable code, and rapid adoption of new technologies.

Education

UNIVERSITAS TERBUKA

Indonesia

Bachelor of Information Systems

2025 - Present

Management Information System, System operation, Data structure, System Design

SMK TUNAS MEDIA

Indonesia

Vocational High School Diploma Software Engineering

2019 - 2022

Experience

Emobo Technology– Mobile Developer

Remote · Sep 2025 – Present

- Founding member & sole mobile developer, collaborating directly with CTO.
- Build and maintain the company's mobile products end-to-end (architecture to deployment).

PUTRA MUDA MANDIRI – Mobile Developer

Remote · Jan 2024 – Present

- Built a Parent **Monitoring System** and **Loyalty Points app** using Flutter.
- Collaborate on app architecture, UI implementation, and API integration.
- Occasionally support web frontend (Vue.js) and backend (Yii).

Core Initiative Studio

Jun 2022 – Present

Freelance Mobile Developer (Remote)

Remote · Jun 2025 - present

- Continue projects from full-time role, maintaining and enhancing production Flutter apps for client operations.

Mobile Developer

Hybrid · Jan 2024 – Jun 2025

- Delivered **4+ production-ready Flutter apps** with 95% design accuracy, handling UI slicing, BLoC state management, backend API integration, and Play Store releases.
- Implemented Android native features (notifications, camera, storage, geolocation).
- Took ownership from development to deployment as sole mobile developer.

Front-End Web Developer

Hybrid · Jun 2022 – Jun 2025

- Developed and maintained Vue.js and React applications, including company profile site.
- Built new features with 90% requirement accuracy and optimized performance for better UX.
- Identified and resolved critical bugs ensuring 100% feature stability.
